

CALL FOR PAPERS

7th Annual

National Wildlife Rehabilitation Conference, Adelaide, South Australia, 22nd-24th June 2010

PLEASE CIRCULATE TO ALL INTERESTED PARTIES

The wildlife rehabilitation industry, which consists largely of volunteers, involves thousands of individuals and groups Australia-wide. It is unfunded, relying on sporadic grants, donations from rescuers and grass-roots fund raising.

The past wildlife rehabilitation conferences have not only increased our knowledge base but, perhaps most importantly of all, have fostered friendships and networking between a wide range of likeminded people from across Australia.

For many in the wildlife industry, these conferences have become important as a source of encouragement and inspiration; reaffirming that we are all part of an important growing worldwide movement.

The 2010 National Wildlife Rehabilitation Conference is being organised by a committee (National Wildlife Rehabilitation Conference Committee Adelaide 2010) which is made up of members from RSPCA SA, Fauna Rescue SA & Project Dolphin Safe. The conference will be held in Adelaide and is expected to attract up to 300 delegates.

We would like to see presentations at the conference covering as many aspects of wildlife rescue, rehabilitation and release as possible, including research into veterinary care for wildlife, rescue and release techniques, administration, management and care of staff and volunteers, and wildlife conservation.

Each speaker will be given up to 45 minutes in total including a 10-15 minute question and answer session. Presenters will be required to submit their papers for publication on the conference website.

To facilitate your attendance, we are happy to offer confirmed speakers free registration for day they are presenting their paper at the conference.

Please send an abstract of approximately 200 words, a biographical statement of 100 words, & an indication of your audio-visual requirements by email to: nwrcadelaide@iprimus.com.au or by post (if you do not have computer access) to the following address:

**National Wildlife Rehabilitation
Conference 2010
